Pinnaca values innovators and entrepreneurs alike who thrive in a fast-paced culture. Join a team of individuals who love what they do and are committed to growing a best-in-class visual communication business

### **POSITION OVERVIEW**

The ideal candidate for this position will have excellent SQL skills, combined with a technical skill set that lends itself to a "self starter" web developer. We are seeking an individual who is flexible, is conversant with technology, and can quickly learn new concepts.

### **MAJOR DUTIES AND RESPONSIBILITIES**

- Creation of modern web pages, web portals, utilizing HTML5, i18n, CSS and Responsive Design techniques.
- Guide, in a consistent fashion, the look and feel of internally developed websites.
- Web page integration through Javascript libraries to Pinnaca's back-end systems (JSON,XML via ESB)
- Work with other members of the Systems team in order to craft aesthetically pleasing, yet functional websites.

- 
- Work with the CIO to continue to advance the state and technologies used for Pinnaca's software development strategy.
  - In accordance with ISO27001, you are required to abide by our security policy.

### **SKILLS REQUIRED**

- Linux
- HTML5, CSS, AJAX, JSON/XML, JQuery.
- Web level security
- Performance tuning of HTML rendering, and user experience.
- DOM manipulation using javascript
- Experience with AngularJS or similar libraries
- Experience in deployment to a multi-browser world, supporting the latest desktop and mobile browsers keeping compatibility with older browsers.
- Agile development methodology
- Experience with Python scripting preferred

### **PERSONAL ATTRIBUTES**

- Strong interpersonal skills, ability to communicate and manage well at all levels of the organization and with staff at remote locations is essential.
- Strong problem solving and creative skills and the ability to exercise sound judgment and make decisions based on accurate and timely analyses.
- High level of integrity and dependability with a strong sense of urgency and results-orientation.
- Excellent communication, and documentation Skills

---

**EDUCATION AND EXPERIENCE REQUIRED**

- A minimum of College Diploma or University Degree
- A minimum of 2 years of prior Web Development experience supporting a commercial environment.
